

Utah Operator Certification Program
REINSTATEMENT APPLICATION

A lapsed certificate may be renewed within six months of the expiration date, by payment of the reinstatement fee (\$200.00) or by passing an examination. After the first six months from the expiration date, the operator shall have one year to appeal to the Operator Certification Commission for renewal of the certificate. After considering the training, experience, education and progress made since the certificate lapsed, the Commission may grant reinstatement without examination.

Instructions: To apply for reinstatement of your water operator certificate, submit this application, along with a written appeal for reinstatement, to the Division of Drinking Water (address listed below). Attach proof of water-related training and/or experience, education, and progress made since and during the last three-year certification period. If you need assistance with this form, call the Operator Certification Program staff at (801) 536-4200.

Name _____ Certification # _____
(first) (middle) (last)
